

Players Conduct Form

Sports and recreational play are a big part in the lives of many youths of our communities. A positive athletic experience has the potential to promote the quality of life by placing emphasis on ethics and character building. Besides coaches and players, parents, also have an opportunity to enhance and improve not only the level of play in athletic competition, but the quality of character development in the lives of young athletes as well. Many competitive and recreational athletic programs in surrounding communities pledge to support and implement principles founded in the premise that “sports can add and should enhance the character and uplift the ethics of the nation”. We must all work together to achieve these crucial goals to maintain integrity of youth, sports and the community as a whole. We encourage coaches, parents and players to provide positive support, care and encouragement to youth participating in competitive sports by following the Character & Ethics Code of Conduct:
